18.—In this Part a reference, however expressed, to the carrying out of a valuation of a relevant property shall, in the case of a relevant property that is the subject of a valuation carried out under the repealed enactments or of a valuation previously carried out under this Part, be construed as a reference to the carrying out of a revaluation of that property.

Valuation orders.

19.—F13[(1) The Commissioner, after consultation with the Minister for the Environment, Community and Local Government and the rating authority concerned, may make an order (in this Act referred to as a 'valuation order') specifying a rating authority area as being an area in relation to which the Commissioner proposes to

Method of determining property's value under *section 28(4)*.

49.—(1) If the value of a relevant property (in *subsection (2)* referred to as the “first-mentioned property”) falls to be determined for the purpose of *section 28(4)*, (or of an appeal from a decision under that section) that determination shall be made by reference to the values, as appearing on the valuation list relating to the same rating authority area as that property is situate in, of other properties comparable to that property.

(a) in case a valuation list is in force in relation to that area, the determination referred to in *subsection (1)* in respect of the first-mentioned property shall be made by the means specified in *section 48(1)*, but the amount estimated by those means to be the property's net annual value shall, in so far as is reasonably practicable, be adjusted so that amount determined to be the property's value is the amount that would have been determined to be its value if the determination had been made by reference to the date specified in the relevant valuation order for the purposes of *section 20*,

(b) in case an existing valuation list is in force in relation to that area, the determination referred to in *subsection (1)* in respect of the first-mentioned

property shall be made by the means specified in *section 48(1)* and by reference to the net annual values of properties (as determined under the repealed enactments) on 1 November 1988, but the amount estimated by those means to be the property's net annual value shall, in so far as it is reasonably practicable, be adjusted so that the amount determined to be the property's value is the amount that would have been determined to be its value if the determination had been made immediately before the commencement of this Act.

Valuation on the contractor's basis.

50.—F54[(1)] If, in determining the net annual value of property or any part of it in accordance with *section 48*, a method of valuation relying on the notional cost of constructing or providing the property or part is used, then, notwithstanding *subsection (3)* of that section, the net annual value of the property or part, for the purposes of that section, F55[shall, subject to *subsection (2)*, be an amount] equal to 5 per cent of the aggregate of the replacement cost, depreciated where appropriate, of the property or part and the site value of the property or, as the case may be, part.
